As of March 2017, Roblox has over 64 million users with 30 million monthly active users. In January 2017 it was announced that females now comprise more than 36% of its demographic, up from just 26% in 2015. Roblox has also had a steady increase in overall player count since 2015. In February 2017, Roblox launched a redesign of its user interface, designed to make it easier for new players to learn about the game and play it. Over 200,000 people signed up during the first week of the rebrand.

Users can report a game if they feel like it does not follow the rules. Either the game will be deleted or the owner will be warned, but most of the time the game is deleted. On January 5, 2017, a legacy avatar called Trollface became unusable because of DMCA claims from its artist. As such, ROBLOX disabled all avatars that use his artwork. It was later re-enabled after copyright claims were retracted.[39]

Due to its age, ROBLOX games often contain bugs and glitches; it can be difficult to get rid of these glitches. Some users have even taken to modifying the game engine to bypass some of these bugs, as well as creating their own games and uploading them to Roblox without permission.

Roblox is an incredible game that gives people the opportunity to play in a virtual world that has so many different games, and it's also completely free. In Roblox there are many different categories of games you can play, for example you can create your own game, and the possibilities are almost endless. The first thing I was really interested in when I started playing Roblox was creating my own avatar which was really fun because you have a lot of options to choose from. You can pick from what hairstyle you want to wear or even what kind of clothes you want to wear. You can also pick how big or small you want your avatar to be, how they look in the mirror and of course what color the hair is. You can even choose if you want them to wear glasses or not.
