The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

Rated 5 out of 5 by Anonymous from Awesome! Roblox is SO fun! You can download it for free and make your own games with your friends... It's really fun and I recommend it to everyone!!!!

Users actually generally hate ads on ROBLOX, but they do them anyway for their own benefit and gain. Ads are actually a great way of generating revenue for ROBLOX, mostly because they only show up when you have enough money to be annoyed with the ads.

Games on ROBLOX have many different settings, including combat, customization settings, scenery design, etc. Several games that are featured on ROBLOX have different levels of rules, from the extremely basic "No Rules" or "Give and Take" settings to "No Kill" settings. The more difficult options create a more immersive experience for the players. For example, some games' settings can only be changed by the current owner, while other games have custom-made tools that allow players to modify it at will.[35]
