Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.

On May 23, 2013, ROBLOX launched an in-game currency known as "TIX" (short for Tickets). It was worth one cent each since its release up until March 2014 when it became worth ten cents. They were planned to be used to buy virtual items for the game "Dance Off", but this never happened. In 2016, ROBLOX announced that TIX would no longer be used in the near future and that other ways of earning and spending money would be found. The currency was officially retired on October 14, 2016; while any TIX that was previously owned by players became converted into an equal amount of Tickets. ROBLOX launched an option to buy TIX with real money on January 13, 2017.

Rated 3 out of 5 by Anonymous from Neat Interesting game where you can build your own games. Not really too into it though to be honest. I'd suggest if you want something like this get Minecraft. Rated 5 out of 5 by Anonymous from I love roblox! Roblox is the best game ever! It has a lot of stuff to do, and there is always someone to play with.

ROBLOX has been criticized many times since its creation. Many users have been dissatisfied with ROBLOX's in-game currency system which involves real money transactions. The price of things such as hats and shirts can be absurdly high, which causes some users to scam others out of their money. This can discourage people from making positive contributions to the game due to its poor reputation among many players.

Implementing technology such as Oculus Rift and PlayStation VR would allow the company to create new VR games. Again, ROBLOX has been criticized due to its unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.
