In March 2017, ROBLOX added a new feature that allows builders to use an already existing image of a face as their character's face. The face can be uploaded from the user's computer or through an online camera. This feature has been disabled for the 2017 Halloween game The Mad Murderer.[38]

Roblox is a multiplayer online platform for young people to create their own roblox. One of the features that the app can offer is the ability to speed hack. For example, if you've been playing for a really long time and want to go into the game room before it ends, you can use this feature to speed hack before anything interrupts your game session. Roblox allows you to have complete control of what happens in a game or app by integrating new APIs (application programming interface).

ROBLOX does not allow players below the age of 13 than sign up for an account. This is because of the maturity level that ROBLOX expects all players to have. ROBLOX does not allow users to make profanity in the game and the server does not allow it, however there are many areas on the game and on their website that do, such as chat boxes in games. They have also recently added a filter button which blocks certain words from appearing in chat. This feature was created to block words that appear to be offensive and potentially harmful at times.[42]

Because the codes were removed, many players are currently trying to figure out how to get free robux without getting scammed. Players who are too young to have an account and/or don't have a credit card can still get free robux by following these steps:

The second way is by buying them from any of the websites which offer them as in-game purchases with real money like Amazon or iTunes cards. These cards can also be bought for cheaper rates at places like GameStop or Walmart.
