Since its launch, Roblox has had many updates. These updates affect the gameplay and/or user experience at all levels of the game. Some updates, such as "Roblox," have been launched by the company itself. Others have been launched by third-party developers or players in the game.

In order to create a game on ROBLOX, one must first obtain a Builders Club membership (a free membership that is required). Upon purchasing this membership, players may then use the in-game tools provided by ROBLOX or the "Studio" to create games that are interactive like FPS, MMORPGs, and various other game types. The engine is not limited to 2D games like most flash games are; it can be utilized in the creation of 3D games too.

Please fix the bug that stops you from playing games and then when you log back in the game glitches and makes it start over again. It makes me very frustrated because I spend a lot of time on this app. So please fix this bug! Roblox is an amazing game but there are some issues with it. My main complaint is that when I play games so many people are rude to others but there's no way to report them or mute them and this to me makes Roblox not so fun anymore and sometimes boring because everyone else around me is just being mean when they don't have to be. There are so many cool things about the game I don't know where to begin. But the one thing that I love the most is that you can play with your friends and you can talk to them through out the game. Let's just get started shall we? I love this because it's so easy and simple. All you have to do is type in your username or email and it will find your account. Then when you are done playing a game and want to do something else click the log out button and you will be brought back to the main screen like when you first logged into roblox. This makes it easy to restart games or to go back to your profile. The first thing that I noticed right off the bat is that this app is a lot better than the one I had before. Because of this I have my hopes up for the future of roblox and how it will be in the years to come. This app gives you a ton of stuff but it leaves out some stuff so I decided to make a suggestion about fixing bugs and glitches with the app but not just bugs in general. What I really like about the app is that you don't have to rotate your phone. Sometimes when I play on roblox I have to get out of bed and turn my phone around because it's upside down because I was in bed. Thanks for eliminating that problem! This is a new feature for the game and personally I think that it is so much better than the old one. It shows you how many fans, bangs, and people are in each group you are in. This makes it easy to know how active you are on roblox.

According to the ROBLOX website, there are over 15 million registered and active players. Like many other user-generated content sites for young children, ROBLOX encourages users to be safe and responsible on its site. It also has a moderation system that allows members of the community to report profiles and comments that may be inappropriate or offensive. Parents can also choose what games their kids can play, or even disable chat so other players can't talk to their child. ROBLOX has also introduced a new feature called "Guardians" which works like parental controls on most software. It allows players to set a game rating they are comfortable with, so that they can choose between games.

On September 2nd 2018, ROBLOX announced that they were banning a group of players who hacked the game "Roblox Crates". This was done because hackers added fake scripts into some games. Roblox had removed all the scripts from those games which resulted in the ROBLOX network crashing.[84]
