ROBLOX has its own program called Easy School. Easy School is an educational system that can be used to learn and teach almost any subject, ranging from math to geography. There are also tutorials for programming languages like Unity3D using C# or Java. The tutorials can be watched in the ROBLOX Workshop Edition or in-game, while teaching other tutorials are available on their website.

Rated 3 out of 5 by Anonymous from Neat Interesting game where you can build your own games. Not really too into it though to be honest. I'd suggest if you want something like this get Minecraft. Rated 5 out of 5 by Anonymous from I love roblox! Roblox is the best game ever! It has a lot of stuff to do, and there is always someone to play with.

Other things that need to be changed or fixed: Change the sound of the hook it is not loud enough and sometimes you can't hear it. So you just have to guess where the enemy is. Make an AMA thing just like Reddit but for developers so we can ask them questions and they will answer them. This will give players some more insight on why stuff isn't in game yet or why stuff is in game. It will also give players a chance to be more involved with the company and make them feel like they are actually doing something. This would also help with bug reports and glitches because then we could ask questions about what's happening and how to fix it.

I love this game it is amazing! I like the way you can make friends easily with nicknames and when you try to play a game you don't have access to there are always glitches, but I LOVE the idea of making the games harder by having three stars or more (like an adult version of Warcraft) but it needs to be stopped from players trying to get a lot of coins for their accounts, because there are some that have 100s of dollars for their accounts and they're selling them...and also about the prices, I put two dollars on Roblox I cannot use it because all transactions done here is done in dollars.

-I would love if Roblox had a marketplace because it could exchange items and in Roblox the avatar is still the same as it was on a website but I wish there were live avatars in my profile

Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 Robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.
