Raiding by jdjejbdndjdkd on 2018/03/28 18:34 Ok so I love the game but I was playing in the classroom and I got attacked by someone else while I was playing it. And I lost all of my troops along with half of my castle. I didn't make it through the game to see if my troops came back but it was just devastating. If you can make the game a little more fair like your secret messages and if there is a new army system that is way more fair. And if you do not want people to attack while you are playing. Then maybe put an option where we can play one by one in our own kingdoms or have a leader board or something like that? I really love the game but I think some stuff needs to be changed. Thanks if you can take into consideration.",

Good but... by minecraftgirl_1234 on 2018/02/18 22:32 This game is great i love it but there are WAYYYY to many ads and the coins aren't cheap at all. I don't mind watching ads for getting coins and what not but I don't do it all the time like you guys want me to. I only have a small allowance which means a lot of my money goes to starving myself on this game. And if you get an ad like once every hour just be thankful for what you get because 90% of phone apps are like that or even worse. Anyways it is a great game and I love it but there are some glitches. Like when I'm clearing the road, I have to tap on the broom to be able to sweep and keep tapping until it unlocks which causes me to lose a lot of lives. Also you could fix one of the new updates where coins and gems and tickets go away sometimes. Sometimes they don't even go away if you got them from one of the game features. And those features are part of getting coins and gems. What about lucky tickets? And if you have this problem too then just tap until it unlocks then get off for like 5 minutes or so then re-open the game. That usually fixes it. Also please fix the issue with the ticket counter. I don't know what it is but I've been watching a lot of videos and forums and they say that if your game is running slow then you should get rid of the "Greatest Hits" feature but you don't get any more coins or like any more credit for using that feature. It's just a wasted ability.",

The game has been featured by Apple, Google Play and the App Store in multiple regions to promote its release. The mobile version of the game was the "App of the Day" on December 17, 2015 in South American countries, including Argentina, Brazil and Paraguay as well as being featured as a free app in Belgium for two days in April 2016.",

"Coin Master" won an Honorable Mention from the 2015 Indie Royale Awards for "Best Card-Based Game". As "Coins & Curses" received mostly positive reviews, Mike Miller announced in September 2016 that a sequel to Coin Master was being developed, titled "Coins & Curses 2". It was released on iOS and Android on December 8, 2016 with some of the original developers from Coin Master returning to work on the game.",
