On January 12th 2019 RoBoX Studios uploaded a video of them waving in front of cameras. The description of the video said "Moped Wave" and there was a picture of the thumbnail saying "Moped Wave". Fans thought it was an advertisement for one of potential future projects. A few days later they uploaded a second video called "RoBoX Studios". This time they were counting to 12 in front of cameras with different colored backgrounds. On January 22nd 2019, after over a month, they have uploaded another video titled "RōBux". The description teased about a possible RōBux 2, which is a mini game in ROBLOX which is cash oriented. On February 18th 2019, they have posted another video titled "RSK", which is short for ROBLOX Studio Kit. This video showed three new projects that were planned to be released with tips on how to create them. On February 19th 2019, they had uploaded yet another video titled "ROBUX". This was a video where it showed a projected page about ROBLOX and what people play. The description read "ROBLOX has more than 200 million users who love playing Roblox games! Which is why next week we will be releasing RSK - the new Roblox Studio kit! It will feature tons of cool features and tools you can use to make awesome 3d games. Keep an eye out for RSK next week. The post was then deleted, then the video was deleted, likely to stop rumors and speculation of a new studio kit.[48] On February 26th 2019, they released RSK to the public under build mode.[49]

Rated 5 out of 5 by Anonymous from Fun on Roblox Being able to build your own game with your friends on roblox is awesome. You can build anything you want including houses, cars and even animals. It will take a little while though but in the end it'll be enjoyable!

There are lots of bugs in this game and we need a way to report them so they can be fixed or can be added into a sticky post. There is not enough room to write here, too much! So what I am going to do is go over the bugs and glitches that are in roblox, then I will tell you how we can get them fixed or changed.

On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

On April 27, 2018, ROBLOX released its own virtual reality headset on their website known as the "ROBLOX Visor." The headset is created in collaboration with Carl Zeiss AG. The headset has a retail cost of \$99 USD and comes with an HD screen capable of playing 2D and 3D content. The headset was also officially launched at E3 2018.
