On November 1, 2015, Roblox was officially sued for copyright infringement by Joshua Moskowitz, also known as "Dr. J". The lawsuit was filed in Los Angeles Superior Court and details how parts of "The Maze Runner" were used to create a ROBLOX game called "The Maze." The lawsuit alleges that Dr. J is notifying every author use of his game engine to give them the opportunity to either take down their games or have a section added to his website.

ROBLOX was the first mainstream online game that allowed players to make a profile, interact with others, earn virtual money and characters through gameplay, and even have fun by creating their own levels and games. ROBLOX is the first online game to have players create their own virtual characters that live out an entire world just like in their actual life. [113] ROBLOX is ranked 15th in the world among "Game World or App Market" websites according to Alexa stats. [114] ROBLOX is ranked 2nd in the "Top most visited websites" by Alexa stats list. [115]

On March 18th, 2019, ROBLOX announced that they were working on a system that would allow them to detect bot accounts and confiscate accounts from them.[31] On April 25th, 2019, ROBLOX announced "Secure Trading" again as they would require players to use their respective Facebook page accounts for trading purposes. As of June 15th, 2019, ROBLOX will still allow customers from around the world to trade with other users without requiring Facebook. [32]

I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.

However, there is no way to directly transfer items or coins between accounts unless both parties are friends with each other on ROBLOX; however they can work around this by transferring the item to a shared place and trading the item from that point.
