In 2015, the game gained attention when a player won a card pack as part of a charity raffle. The player was awarded the card "MYSTIC MINE" by developer United Pixelworkers after taking part in an event via their Twitter account. Mike Miller, the developer of the mobile game, confirmed on his Twitter page that it is an actual card for sale in their store and since then has made appearances in real-world merchandise and as part of cards used in tournaments.",

Coin Master is a game app for mobile devices. The game has spun off into a collectible card trading card game which is created by the makers of the original Coin Master Game. The app is free to download and it's available on Android, iOS and Windows.",

The game was launched on the Google play store in August 2012. In December 2015 Coin Master was removed from the play store for unknown reasons but it continues to remain available on its own website. Moon Active announced in October 2016 that "Coin Master" was shutting down. However, in 2018, Moon Active released version 1.1 for iOS devices which contained support for 3D touch devices and some other bug fixes. They also announced another new game called Coin Master "Dig Deep" which is similar to the original Coin Master but has added features such as a virtual currency system and features much more content than the original game.",

Users have criticized Coin Master for its monotony and reliance on making users pay real money to progress in the game. A user review on iTunes complains that it is "just another collect-a-thon with a coin motif". The developer of Coin Master has countered this criticism by stating that they do not believe in "pay to win" video games and hope to provide their users with a fun and engaging experience.",

In August 2015 Moon Active announced that they had partnered with Amazon to create what appears to be a new version of Coin Master for release on Amazon Fire tablets in 2017. No other details were revealed, however an official announcement video was released later that month.",
