Free Robux Codes are codes that can be used to get free Robux with the game Roblox. These codes are usually found by going through YouTube comments and deciphered from there. There is no guarantee the code will work, and if it does, you may not get the full amount of Robux you were hoping for. Each code posted on my channel is checked for legitimacy beforehand. In order to stay safe, you should know the difference between a cheats and a hack. The codes listed in the video above are not hacks. Hacks do not use codes, as they require an exploit in the game's coding.

The 100Robux app has been designed for the people who are looking to make money and earn in-game currencies, such as Robux, through online ads and offers. This would be a way for gamers to make money off their skills by building up their game and having other users purchase in-game currency.

The company has a 4-star rating on Glassdoor with an overall rating of 2.5 and 13 reviews. This is the highest rated tech company based in the United States that employs over 1000 people. The reviews on Glassdoor were posted between 2014 and 2016 and highlight some of Roblox's positives such as competitive salary and possible career advancement, but also negative aspects such as mediocre work-life balance, poor management and lack of training in some departments. The overall rating is 2.5 stars, the lowest rating given on the site and 5% of all companies with a rating of 3 or higher.

On July 31st 2019, ROBLOX announced they would no longer be supporting this feature, and will be removing all games that are now using this physics system from the ROBLOX Catalog. This will affect nearly every game and millions of gameplay hours into future. The reason why they are discontinuing the feature is because most games with custom physics settings were [[Rage Quitters's favorite targets, and almost all of them are either unplayable or broken due to Roblox's buggy physics engine.

On September 8, 2018, ROBLOX released an update that added a "New Games" section to its website. This section is separated into sub-categories for ease-of-navigation and new content coming soon. This section also functions as a "curated library" with all games listed in a searchable manner (e.g., "roblox" will bring up any game about ROBLOX, but "roblox experiment" won't).
