On September 2nd 2018, ROBLOX announced that they were banning a group of players who hacked the game "Roblox Crates". This was done because hackers added fake scripts into some games. Roblox had removed all the scripts from those games which resulted in the ROBLOX network crashing.[84]

I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games.

ROBLOX has also been criticised for its lack of support for users who are victims of scams and other forms of theft. Some samples include: A user by the name of EthanSteele has recently had his full game, "The Quest" stolen by someone else and renamed "Game Start". He made an appeal to ROBLOX's administrators on Reddit asking that he be given back his prototype so that he could resume development on it but they banned him and closed his case. Another example was the theft of a user's game, "The Polaroid Project", by another user who put it on a free-to-play model for the purpose of making money.

This is not an open world game, each world contains its own mini-map that shows the player where he or she can go and where they cannot go. No one will know you're there if you stay hidden. This means that if you don't want someone to find something in your inventory, you have a location to hide it.

On December 30th, 2011, Roblox sent a DMCA notice to Awaited Studios to take down "Infinity: The Quest to the End of the Universe" after noticing that they were releasing code from ROBLOX in their game. Since then, the company has kept all of its released code in a separate source file called "robux".
