Roblox is one of the most popular online games in existence. In my opinion, this game is extremely fun and great for all ages. Although I have been playing roblox for only about a month now, I still love the game so far. Roblox has a variety of different games in which you can play and I enjoy all of them. Another thing I have learned about roblox is that the company behind it is very kind towards their players. Although there are many things to be aware of when playing roblox, the game has many differences from other games and these things make it better than most.

On January 1st 2019, ROBLOX released a new core version update for their engine. They are now using a new source engine called "Bloxlet" and integrated a new built-in physics engine into the game. This feature will allow users to play in one of three different modes: Classic ROBLOX mode which uses the older physics system from ROBLOX, Bloxlet mode which uses the new physics system in ROBLOX 2.0 and fixed bugs, and Customized mode which allows players to customize their own physics setting. This update was expected to start being released in-game on January 15th 2019.[101] This release ended up having some bugs which caused users to get stuck in the game and crashes.[102] However an update was released a few days later, which fixed most of the bugs and added more control for players to customize their suitable physics settings.

On May 9th, 2015 ROBLOX changed their logo again which became more square and flat then their old one. Their previous version was rounded more than their current version. On November 5th, 2016, ROBLOX released yet another logo which is now a modified version of the 2010 logo. The new logo has a more pixelated layout and a different shade of blue.

In January 2016, the Roblox developers said they will be working with an external security firm to enforce a set of rules, and would only support third-party software that is approved by their partners.

Mobile App: On September 5th, 2018, ROBLOX released their first official mobile app for iOS and Android devices. The app has various features such as the ability to customize avatars, the ability to chat with other Robloxians, even add people as friends. It also allows users to play games that they can't play on their website.
