How about having a system where you can trade other players items and for their items you can trade them.. and also it would be better if someone was able to get ban for inappropriate activity but at least it would give them an option to choose from and no one should be allowed to use excessive exp which is currently going very bad in the game... How about aswell have a better chat message system as well as on roblox the roleplay activity is pretty dead....

This free robux on roblox generator is a very good and very reliable way to get free robux on roblox from now on without having to spend any money. I would highly recommend using this method if you are looking for something that you can use to get free robux on roblox right away!

The main reason for this update was to make ROBLOX a lot more social, as at the time the website only had game-based features. Also, players can now buy items (e.g., skins & backgrounds) with in-game currency and have them delivered to their homes.

Two employees who worked on the HR department for Roblox, Abigail Sexton and Aaron Dixon, were eventually fired for allegedly not doing their jobs properly. They both accused David Baszucki of firing them for speaking out about the issues with the company's HR department.

On July 27th, 2018, ROBLOX announced that they were going to be having an "open beta" of a new in-game currency system that would allow users to buy and sell virtual currency. This feature was added to the site in 2015, but this was the first time that it was open to everyone. This new system came with a "Queueing" system similar to YouTube's order form, which many game creators saw as useful in saving time from waiting for transactions manually. Users can still trade with each other if they wish to do so.[23]
