No microtransactions. Roblox does not have any in-game purchases or microtransactions, meaning that you can play as much as you want without worrying about being charged each time. This works very well as the developers have a different way to monetize their system - which we'll discuss further on into this review.

Once you have downloaded this application, then just click on "Generate Robux" in order to start generating free robux for roblox. As you can see from the image shown above, there are a lot of different options that you can use in order to generate free robux for roblox. It is essential that you select exactly the right one for your device because not all of them are safe to use so I would suggest you to only download this one and leave out the rest of them.

One great option is to use your own money to buy robux. This may not seem like an appealing idea at first, but it can provide you with a lot of benefits that are easy to obtain. If you have extra money on your hands, then you should definitely consider investing in robux. Once you have collected enough virtual currency, stop using it and wait for the value of robux to increase over time. With the amount of time that passes by each day, you will see a good return on investment within a few months.

ROBLOX's official blog (started on November 19th, 2011) and LiveJournal were used to communicate with the community prior to the creation of the forums. The blog is still active but has been replaced by a Forum that is more conversational tone. The LiveJournal was shut down in October 2016, making ROBLOX one of few third-party sites without one.[12] In January 2017, ROBLOX launched their YouTube channel. The channel currently has about 1 minute and 38 seconds of uploads.
