Who would want to play a game like this? Nobody really I would think. It's just like Roblox in that you can buy stuff with fake money, but there is no value in either one of them. The real issue is that the developer(s) of both games are making a ton of money from people who don't care about winning or losing, they just want to have fun.

Roblox is a video game platform created by American programmer David Baszucki in 2006 as a social game for children ages 8 to 13. The game is free to play, but contains some limitations like the amount of characters and objects that can be placed in a single game.

Robux (also known as Roblox) is the in-game currency of Minecraft:Roblox. It can be bought with real money, but in order to earn it, you have to do missions or purchase it with real money, which means that you are paying them for a fixed amount of time. Unfortunately for some players, they will be astounded by the fact that buying robux for roblox actually results in getting less than what you would get if you had done all these activities on your own. The amount of robux that you will get depends on how much stuff you buy and how many times you do a test.

It's hard for players who are older or younger (because of the increasing costs) to get some points because it takes a lot of effort just for 1 point. Some fields require money that most players cannot pay for. You can easily see this in the game's world:

On December 5, 2018, ROBLOX released their first Steam game "ROBLOX On Ice", developed by user SamoDaCar. In early 2017, ROBLOX released a YouTube channel. The channel features animated shorts of the game "Abobo's Big Adventure", a reboot of the popular war series "Abobo's Big Adventure". In July 2017, ROBLOX released its second YouTube channel called Roblox Top Model. It came with a new show and it was announced that they were coming out with more shows in the future. This channel features many shows, including Talent Time, Celebrity Catwalk, Dancing With The Star, The Edge Of Glory and more.
