Some other ways that these generators get more traffic is through sending out promotional codes on social media sites like Twitter or Facebook while also using email marketing techniques.

Although many games on ROBLOX are free, some with "premium" features, others require money for certain features. One example of this is when the players can buy exclusive items that are only available for purchase through Builders Club membership.[53] Before March 2010, premium features were known as paid-for items. As of March 2010, all premium items in a game are referred to as "Builders Club Premium."

I love Roblox, but sometimes it's hard to keep the game up and you seem to be forced to buy certain games. I think there should be a better way of getting new people in the game and not having so many bad games out there. Everyone is trying to make money off of Roblox, which is good, but I just wish that they could make more updates for the games and keep them working properly.

Roblox cannot afford to go down the path of Farmville. They need to remain an open source program for everyone, where people can come together as equals and play fun games without being forced to pay money to be able to continue having fun within their virtual world. People who think they can't afford to pay should just get used to not having an ROBLOX account because that's what's happening. People are being kicked off the server by player banning.

On December 4th 2018, ROBLOX added a new feature called "Workshops" to their website. The forums were flooded with many negative comments and claims that it was poor execution of a feature meant for building games. They were also accused of being lazy about implementing it into their website.
