On September 30th, 2018, ROBLOX released a "make your own toy" simulator called "Work at a Pizza Place". It proved very controversial as many users perceived it to be a lazy game and was rushed out without being finished. There were also many players complaining about how they could make money by selling pizza hats and shirts. However, this was only intended for people who would want to work at ROBLOX pizza.

Every year since 2011 Roblox has hosted a "Developer's Conference" at the language center of Carnegie Mellon University. In 2013 and 2015, the conference was held in Washington DC. It is usually held between late July and early August. The event includes a keynote from an important person of interest to Roblox developers (i.e., one of the founders).

Roblox is governed by a global moderation team, consisting of volunteers and employees. Moderators monitor Roblox for inappropriate content like violence, nudity, profanity and copyright infringement. Moderators have the ability to mute, ban, or delete users from a game. Players can also report other players for inappropriate behaviour. In addition, moderators are expected to help players in need with moderation and issue resolution.

On January 24, 2010, ROBLOX released a new version 3 logo to replace the one that they had been using since 2008. The new version of the logo still has no color in it; however, it now uses vector graphics, as opposed to bitmap graphics on previous logos. This new logo also included a small R inside a circle which represents ROBLOX's focus on imagination and creativity.

Before you can start getting your free robux for roblox, you will have to make sure that the application itself is safe to use. As I have mentioned before, there are a lot of different generators available and some of them are not safe to use so you have to be careful in choosing the right generator for your device.
