However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Puss in Boots is composed of 5.0 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 5.0 out of 5 stars (out of 1 vote)."

Good for a few hours... by Tenderly18 on 2018/06/07 01:27 I have been playing this game for over 4 years now and I kind of got used to it. But now, it is starting to get annoying. The ads are way too long and I feel like they are just there to draw my attention and make money off of people that like this game. Also, sometimes you don't get the payout you think you do for your tickets or gems. There are some things they really need to work on because otherwise the app gets pretty boring after a while.",

The game was released on September 13th, 2018 after more than three years in development. The mobile version has been downloaded over 1 million times since it's initial release and the PC versions were downloaded over a million times. Due to the lengthy development cycle of this title and the popularity of the original "Coins & Curses" game United Pixelworkers is planning to release a sequel to this title before April 2019.",

Five "card packs" were released after completion of level 3105 on March 16, 2018 available exclusively through United Pixelworkers' Facebook page. The packs are currently only available on iOS devices, however they will be released on Android after the PC release of the game.",
