"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money. It would also be cool to have a way to actually get coins and lives without having to pay for them." "I love this game because anyone can play it, anytime, anywhere. But I just don't quite understand how they are trying to make money. You have these extra lives you win from watching videos or playing other games, but they are not enough unless you spend your actual lives on them through in-app purchases or by downloading another game that requires real money. I would give this game five stars except for the fact that I feel like there's a lot of potential wasted on how they are trying to make money. Hopefully the developers will change their ways. I would love to give this game five stars because the graphics are good, and it is entertaining."",

Great idea but... by Crhbxrra on 2015/06/20 20:56 I like this game but when you are done with your board there is no reason to go back to it and play again. This makes it really difficult to get more coins. The game should have a reward system that comes in every few days or something. I feel like I am just wasting time playing the same puzzles over and over without reward.",
