There are three different ways in which you can connect to a server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

There are many different mods for Minecraft and sometimes they can conflict with each other. For example, some mods may override the resource packs that you have selected in your game settings menu. Modpacks are generally okay because the creation of them is based on sharing resources between multiple mods, but sometimes this can cause problems. If your modpack stops working or causing errors, it is a good idea to change the settings of the modpack to see if it lets them work again.",
