So far I haven't really enjoyed ROBLOX because of how serious it is. The game itself just isn't fun and is way too addicting for me. I know some people enjoy it because of how addicting it is but it just isn't fun for me. Why is that?

Rated 3 out of 5 by Anonymous from not good I have never played roblox before, but it's now my 3rd or 4th time playing and each time i load it, i get an error to say "login failed - 504". Rated 1 out of 5 by Anonymous from trash My user account got suspended for some reason. I didn't even know what roblox was until i got a message telling me that my account was suspended. That's it! Rated 2 out of 5 by Anonymous from To late Sorry I do not recommend getting this app. I only got it because I thought it would be fun to build a school and have students move in and learning the right skills. But that's not what this app is about.

They say content is king, and this statement could not be more accurate for Roblox. Why? Because on Roblox, players are able to make their own games within the game itself! These games are called "games" or "sims," and they can be accessed from a GUI called "The Catalog." There are tons of free games that players have created and uploaded for others to play. In order to play these games, you have to purchase them using free robux. You can also make your own game and make it either free for others to play or charge for everyone else to play.

On April 6, 2015, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2017 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

In October 2014, ArenaNet announced that Guild Wars 2 will be fully free-to-play with no restrictions on level or content,[60][61] due to being released as a core game in China, where games must provide full unrestricted access or it cannot be published by the People's Republic of China's Ministry of Culture. Within a few months, the game had rebounded from the effects of these restrictions, as the player base had grown to exceed that of the Asia server.
